Fulton Souvenir
 LANCASTER, PA.

1. Robert Fulton—born 1765, died 1815. Received his early education in Lancaster County, Penna. Invented the use of paddlewheels in substitution of oars in 1779, when only fourteen years of age. Built and successfully operated the "Clermont" in 1807, which was the first steam propelled boat.

2. Statue of Robert Fulton and Model of First Steamboat. This statue was erected in Statuary Hall, U. S. Capitol, Washington, D. C., by the State of Pennsylvania.

3. Birthplace of Robert Fulton, in Fulton township, Lancaster County, Pa., the proposed location of a national memorial contemplated by bill H. R. 9140 introduced by Congressman W. W. Griest, May 3, 1909.

4. The issuance of the specially designed "Hudson-Fulton Celebration" postage stamp used on this card was suggested and urged by Congressman Griest because of Fulton's nativity in Lancaster County, Pa.
