CROSS BORDER RATES

Money Letter

The "Money Letter" system was an early form of registration. The rate, Canada to U.S., had been set at 6d. per ½-oz. on April 6, 1851. If any money was enclosed, the rate was double. The handstamp "MONEY LETTER" implied that that fee had been paid in cash.

PAID

March 10, 1854. A letter posted at Bayfield, Canada West (now in Ontario) on the shore of Lake Huron. It contained \$24.00 to settle a defaulted debt in Detroit for books. It was struck with the Type RH2 (Boggs) handstamp and marked PAID 6d. being the postage only. An additional 6d. had been paid for the Money Letter. The "167" is the Way Bill designation for this Money Letter.

March 14. Transit backstamps at London, Upper Canada, and Chatham. The latter had been known as Raleigh just two years previously. This letter was exchanged at the Windsor, U.C. to Detroit Exchange Offices.

As the 6d. (+ 6d. Money Letter) was all inclusive, no postage was due at Detroit.
